### **AIMS OF THE JOURNAL**

Journal of UTEC Engineering Management (JUEM) is an academic, not for profit, blind peer-reviewed journal of research across technical disciplines. It aims to provide teachers, students and learned members of the community an authentic open-access platform featuring scholarly research, reviews and experiments on the state of current discourse on topics of interdisciplinary interest. The annual journal is published both in print and electronic forms once a year in the month of June.

### **MISSION**

The journal will strive to create a platform where scholars, experts and thinkers exchange informed, innovative and respectful experiments on important topics to technical domains across disciplines for the larger good of the people.

### **VISION**

The vision of the journal is to become the leading platform for interdisciplinary research and writing, known for its high standards, innovative approach, and impact on the learned community.

### **TARGETS**

1. To publish the highest-quality research and writing across technical disciplines
2. Increase the visibility and impact of the journal

### **KEY OBJECTIVES**

1. To publish high-quality research articles, reviews and experiments per issue and move forward the interdisciplinary and multi-disciplinary innovation for knowledge generating on improving human conditions.
2. To provide authors with detailed and constructive feedback within weeks of their submission of articles.
3. To keep a tally of interdisciplinary knowledge and theory building works from the submissions received on making the academic innovation more smarter, sustainable, and practicable.
4. To ensure the implementation of copyright and intellectual property laws.
5. To explore tools and resources for visibility of the journal and maintenance of its international standards for dissemination of findings.

## **METHODOLOGY**

The journal uses a rigorous peer-review process, led by a team of experts from Nepal and abroad, to ensure high quality and impact of published research and writing in pursuit of productive and practicable innovation. Articles are subject to initial editor screening followed by a blind peer review before publication. Submissions are invariably checked for plagiarism. Manuscripts must be between 5 and 20 pages, in APA formats, that is between (3000 and 8000 words), excluding references.

## **PEER REVIEW PROCESS**

Research and review articles received from open call and individual invitation are peer-reviewed, double-blind, before publication. The Managing Editor sends original research and review articles to Section Editors for initial review of the work's relevance to the journal. They submit draft decisions to the Editor-in-Chief for final decision about further review or rejection. The initial review process will be short, and not last longer than six weeks. Experiments, including case studies and experiment, are reviewed by Section Editors and cleared with the Editor-in-Chief. These are not subject to double blind peer review. Name of Reviewer board displayed will be contacted for assistance to search expert in the same area and may be requested to review also.
